Lifetime Verified Site Form

Requirements for Lifetime Verified Site Warranty Coverage:

Installed by a Certified Elite Installer:

- Signed Certified Elite Installer Agreement.
- At least one (1) Master Technician on staff with a valid license and status in good standing.
- Master Technician must supervise Lifetime Verified Site Warranty project.

Before Installation:

1. **IT IS IMPORTANT TO VERIFY YOUR PROJECT WITH ICC PRIOR TO STARTING THE WORK. ICC WILL NOT BE ABLE TO PROVIDE WARRANTY COVERAGE ONCE THE WORK HAS STARTED.**
2. Please complete this form and email to mkt@icc.com or fax 562.356.3100 as soon as possible.
3. ICC will confirm receipt of site verification and issue a verification number.
4. Contact your Account Manager for more information.

After Installation:

Within 30 days after completion of the cabling system installation, the Certified Elite Installer must submit the following to ICC:

1. A complete and passed test report (soft copy preferred) detailing every drop. Test must be conducted using a TIA-568 compliant, UL verified Class IIe, III, or IV field certification device that can report dB and frequency data. ICC may request to be present during the testing. The test data must be obtained by following the certification procedures as detailed in TIA-568 standards and the Telecommunications Distribution Methods Manual.
2. A copy of the horizontal and/or backbone schematic showing location of each link.
3. A copy of dated invoices from authorized ICC distributor showing all ICC products used in the project.

Upon verification of compliance of all the above, ICC will issue a Proof of Lifetime Performance Limited Warranty™ to the Certified Elite Installer. (for original Verified Site Warranties only).

Making Modification, Additions, Changes (MACs) to the Verified Site:

Follow procedures above for only the links affected along with providing an explanation of the reasons for the change, addition, or replacement. Modifications without re-verification will void the original warranty.
